Black Dyed Hardwood Mulch, 2 Cubic Foot Bag

Dyed black mulch is the best option if you prefer that your mulch stays black all year long. Black mulch absorbs and retains sunlight more so than other colors, thereby warming the garden soil and enhancing growth of landscape plants. It is processed with vegetable dye that is completely pet safe. Make sure you allow the dye to cure at least 24 hours before it rains.

- Highest quality jet black colorant for greater longevity
- Double processed for fine texture
- Hardwood mulch
- Pet-safe dye

Double Processed Hardwood Mulch, 3 Cubic Foot Bag

We offer the highest quality hardwood bark mulch in central Ohio. Our hardwood mulch has the perfect texture for those that don't want large chunk or the ultra-fine texture and does not have the smell of manure. This mulch is applied to help retain moisture for your plants during the dry month of summer, retard weed growth in your landscape beds, and insulate your plants during the harsh Ohio winters. Our Double Processed Hardwood Mulch is mulch that has the right materials, composted the right amount of time, and is processed to the right texture.

- Double processed for fine texture
- All bark hardwood
- No manure or other additives
- Naturally dark brown color

Premium Cypress, 3 Cubic Foot Bag

Our premium cypress provides many benefits to your landscape. This mulch conserves moisture in the soil and minimizes soil erosion and compaction. It also helps maintain uniform soil temperature. Ideal for use around trees, shrubs, and flower beds.

- Conserves moisture in soil
- Minimizes soil erosion and compaction
- Helps maintain uniform soil temperature
- Rich orangish-red color
